

## Urban Villa Historic Preservation

OWA is assisting Urban Villa in preparing an application to have their community placed on the Historic Register. OWA made a presentation at Urban Villa's 50th Anniversary celebration. Dr. Myrick-Harris discussed the historical patterns that led to the development of Urban Villa. Dr. Harris produced a short video chronicling the development of the Urban Villa community through family photographs that families made available as part of the celebration. OWA has assembled and is training volunteers to collect the oral histories of Urban Villa residents.
